Reference letter

Since the initial order, (Mid 2017), SGP has assisted Curtiss-Wright with activities associated with sorting, component selection, rework and production support on site at Curtiss-Wright in Gwent and our customer's plant, Southco in Worcester.

With all of the associated activities, SGP Sorting Group has performed admirably and I can confirm their high quality, punctuality and flexibility of their undertakings.

The communication and services provided by SGP have always been provided in a timely manner and are to the expected high standards. This ongoing management and efficient information flow provides confidence in our initial choice into entering such a relationship with the SGP Group.

Based on my personal experience, I have pleasure in recommending the international SGP Sorting Group as a straightforward and reliable business partner.

David Alexander
Quality Manager
